

PHOTOSITE

WITH RUBY ON RAILS USING SQLITE DATABASE

- INTRODUCTION AND PURPOSE

- Name of the application: Photosite
Photosite is a photo sharing website where each user can have multiple photos.
The data is pre-loaded.
Each photo can have multiple comments.
Photos are organized by user.
Comment has a link of the creator, which navigates to the photo page of the commenter.

- DEMONSTRATION OF APPLICATION

- URL 1: /user/index [Lists all the users in the database.]

<http://localhost:3000/user/index>
PHOTOSITE USERS LIST

There are 6 users

User First Last

1. Justin Bieber
2. Paris Hilton
3. Megan Trainor
4. Barack Obama
5. Santa Claus
6. John Ousterhout

Lists all the users in the database.

- URL 2: /photo/index/id where id is the database identifier.
 - <http://localhost:3000/photo/index/1>
 - Lists all the photos of the user along with details like creation time of the photo, comment, time of comment, commenter's name and ID.

Photo creation time: 2009-09-13 20:00:00 UTC

Time of comment : 2009-09-14 18:07:00 UTC

User ID : 1

Comment : No, people, she is *not* my mom. She's my date.

Photo creation time: 2013-09-20 17:30:00 UTC

Time of comment : 2013-11-28 17:45:13 UTC

User ID : 6

Comment : I came up with lots of comments for this photo, but unfortunately none of them were good.

Comment by : [JohnOusterhout](#)

In the second photo of the above link there is a comment created by John Ousterhout. When the link is clicked, it redirects to the photo page of John Ousterhout.

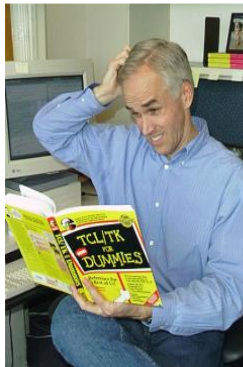

Photo creation time: 2012-08-30 10:44:23 UTC

Time of comment : 2012-09-02 14:01:00 UTC

User ID : 6

Comment : Learning a new programming languages is hard...

Comment by : [JohnOusterhout](#)

Time of comment : 2013-09-06 14:02:00 UTC

User ID : 6

Comment : This is another comment, with a bit more text; if the text gets long enough, does it wrap properly from line to line?

Comment by : [JohnOusterhout](#)

Time of comment : 2013-09-08 14:06:00 UTC

User ID : 6

Comment : If you see this text in **boldface** then HTML escaping isn't working properly.
